

The IPLOCA Members Technology Platform & The Tech Expert Portal

Powered by [TechnologyCatalogue.com](https://www.TechnologyCatalogue.com)

ABOUT

Finding customers can be challenging at times.

What if... you could promote your technologies and capabilities to potential clients at a far lower cost?

IPLOCA has partnered with TechnologyCatalogue.com to offer its members an IPLOCA portal to the Technology Catalogue - an online platform that modernises the way IPLOCA helps connect the innovative technologies of IPLOCA members to potential clients and facilitates knowledge sharing between members.

TechnologyCatalogue.com makes finding technology as easy as finding a restaurant and provides access to all the required support services to get the technology deployed.

Registering on the IPLOCA Member Portal is FREE. For more information about IPLOCA, visit www.iploca.com

Most Recently Added Technologies

- We have now more than 35 technology descriptions in our IPLOCA Platform!

Fully Electric Horizontal Drilling Rig HDD80-E
